

Traditional Marriage Tour

August 1, 2012

[Link to document](#)

Dear Friend,

The institution of marriage is under a barrage of attacks from certain politicians, judicial activists, and citizen advocates. Recent events including the President of the United States commenting that he supports gay marriage, instructing the Department of Justice not to enforce violations of the Defense of Marriage Act and a 9th circuit court's decision to strike down Proposition 8 in California, makes it necessary for us to act now!

The above combined actions make it abundantly clear that an effective campaign to counter the political, legal, and citizen advocacy activities to reshape and redefine marriage as a covenant between one man and one woman is needed.

It is our intent to mount an effective multi-denominational, multi-racial coalition's operation to defend the institution of marriage.

Below is a list of all upcoming events and locations
